Rules & Educational Importance

Find the one ! - the rules

Playing time: 5 minutes
Number of players: 2 to 4

In this set, you will find 31 square cards (it is easier to cut). All of them are different and there is always only one matching symbol between 2 cards. Yes, try it and you will see for yourself !!

How to play ?

There are different games that you can play but here is the one I like best: you shuffle and deal all the cards (face-down) and put the last one in the middle (face-up). When one player spots a matching symbol, he calls it (perfect to work on pronunciation) and puts his card on top of the pile. The winner is the first player who has no card left in his draw pile.

Expand your students' vocabulary !

This game is a great opportunity to work on :

- how to expand your students' vocabulary
- how to improve their pronunciation.

First, make sure your students know all the words before playing. I provided 3 worksheets:

you can

A black and white blank page for your students.

Expand your students' vocabulary !

Then you can use the flashcards to see how much your students remember and check pronunciation of course.
