... **the simple present**

Hi there ! I'm Mary: I'm thirty-nine years old and I live in LA, California. I'm a hairdresser. Here is what I do everyday: I get up at 7 and eat breakfast. I take the bus to go to work. I arrive at 9. The first client is here: I wash her hair, comb it and start to cut. I'm also here to help my clients when they don't know what to do exactly with their hair. After cutting, I sweep the floor. I finish work at 7pm and go back home. I really love my job !

Now, it's your turn ! What can you say about Mary ?
